

# MAX METAL

## **Philosophy and Mission**

Max Metal is specialized in the creation and supply of metal accessories for the world of leather. Our experience allow us to make available to the customer only quality items with competitive prices. Our metal accessories reflect the latest fashion trends and are continuously updating with the latest news of the fashion world. Our new online catalogue is even closer to our customers because it has been created for an easy reading and interaction with everybody and through any device. Seriousness in the conditions of sell and time of delivery is for us a fundamental value. With us you will always find support and advice and we will always be to your disposal for helping you to transform your needs in a concrete product.

## **Profile and History**

Max Metal works for over 30 years in the metal accessories for leather articles field, evolving over the years first with a new company name and most recently changing management and taking the baton from the previous owner to the current company giving to the company continuity and at the same time beginning a steady period of development that isn't yet finished. Such growth leads MAX METAL to become a reference point both in Milan than in the rest of Italy as well as abroad thanks to the professionalism of its members.

## **Environment**

Attention for environment impels us to find always new solutions starting from the normal routine activities and arriving to the production. MAX METAL items reflect our will to preserve the planet and for this, during the years, we have diversify our productions, using also materials with zero ecologic impact like ECOBRASS (brass without lead).

# BASE STUDS
